## **JIMWAY Conveyor Belt Cleaner: Carryback Solution**

Edited by on 18. Oct. 2023

Carryback is a major problem in most plants that is solved by our specialty belt cleaners, which work with all belt sizes/speeds, regardless of industry or type of material.

Our belt cleaner scrapers include food-grade, high-temperature, corrosion-resistant, and high-abrasion resistant, all engineered for challenging conditions and unusual materials. In addition, Jimway offers high-performing patented belt cleaner systems, which is the effective solution to eliminate carryback.
