Food Technology

Trade Fair – Chişinău, Moldova

Edited by on 5. Dec. 2023

"Int. Specialized Exhibition of Equipment and Technologies for Food Processing Technology "

The International specialized exhibition FOOD TECHNOLOGY aims to support the further development and improvement of the food processing industry in Moldova. The trade fair presents, in a concentrated form, the actual image of the market of equipment and technologies for the food processing sector.

The mission of FOOD TECHNOLOGY includes attracting foreign manufacturers of modern specialized equipment on high demand in the market of Moldova. Thus, the exhibition is a good platform for establishing business contacts. The exhibitors have the opportunity to evaluate the activity of competitors in order to determine their own position in the market and to attract the widest target audience — the industry professionals and the end-consumers, as well as potential partners.
