Monadelphous awarded Overland Conveyor Construction Contract with Fortescue Metals

Edited by on 20. Jul. 2023

Victoria Park (WA), Australia –

Today, July 20, 2023, engineering company Monadelphous Group announced that it has secured new contracts and contract extensions totalling approx. AUD 150 million, including the construction of an overland conveyor and transfer station at the Christmas Creek mine site in the Pilbara region of Western Australia.

The Company has been awarded a contract with Fortescue Metals Group for the supply and construction of an overland conveyor and transfer station at the Christmas Creek mine site in the Pilbara region of Western Australia. The scope of work, which includes civil, structural, mechanical, piping, electrical and instrumentation works, commences immediately and is expected to be completed in the first half of 2024.

In addition, Monadelphous has secured a two-year extension to its existing maintenance services contract at BHP's Olympic Dam operations in South Australia. The scope of work includes mechanical and electrical maintenance, shutdown and project services.

Finally, the Company has been awarded a two-year extension to its existing contract with Rio Tinto to continue providing mechanical, electrical and access maintenance services for fixed plant shutdowns at its Gove operations in the Northern Territory
