## Hillhead 2024

Trade Fair – Buxton, United Kingdom

Edited by on 1. Dec. 2023

"Quarrying, Construction & Recycling"

Held in a limestone quarry, Hillhead has maintained its reputation as the UK's largest quarrying exhibition, welcoming 20,000 visitors from across the world who come to experience the show's unique atmosphere, meet suppliers and see the latest equipment, products and services on offer.

Hillhead would not be complete without its live demonstrations. The Quarry Face, Crusher Alley, Recycling and Registration Demonstration Areas will once again showcase a host of plant and equipment, all being put through its paces in a live quarry environment.
