Bedeschi to supply new Bucket Wheel Stacker/Reclaimer for ArcelorMittal Belgium

Edited by on 23. Jan. 2024

Limena (PD), Italy –

For ArcelorMittal Belgium, a major player in the world in the steel sector and a long-time customer of Bedeschi S.p.a., the company will supply a bucket wheel Stacker/Reclaimer and a Rotative stacker on a turnkey project base.

Bedeschi collaborated with Worley and ArcelorMittal Belgium to meet client needs regarding production, maintenance, and sub-vendors. The combined stacker-reclaimer will handle iron ore pellets (bulk density of 2.4 t/m^3) with the following capacities: Stacking capacity of 4000 t/h and reclaiming capacity of 1400 t/h. The Rotative Stacker will handle a mix of material (bulk density of 2.4 t/m^3) with a 2900 t/h capacity.
