"Energizing a Sustainable Industry"

At the world's leading industrial trade fair, companies from the mechanical engineering, electrical engineering and digital industries as well as the energy sector will come together to present solutions for a high-performance, but also sustainable industry. More than 4,000 companies will be acting as an interconnected industrial ecosystem and demonstrating how climate neutrality can be achieved through electrification, digitization and automation.

HANNOVER MESSE is the most important international platform and hot spot for industrial transformation - with excellent innovations or unusual products. Here you will find all the facts that make one thing even clearer: participation is an absolute "must"!
