SOLIDS Parma 2024

Ausstellung – Parma (PR), Italien

Bearbeitet von am 4. Dez. 2023

"The Entire Process Engineering Value Chain for Powders, Granules and Bulk Solids"

SOLIDS Parma is the meeting place for the entire bulk solids industry. Trade visitors meet national and international exhibitors who offer them solutions for their specific needs. The exchange and networking as well as business initiations between decision-makers and renowned companies are the focus of the trade show.

SOLIDS Parma is the leading Italian trade fair for technologies for handling and processing granulates, powders and bulk solids and addresses all industries in which bulk solids technologies are used. These include agriculture and the animal feed industry, the food industry, rubber production and plastics processing, chemicals and pharmaceuticals, metal processing, mechanical engineering, cosmetics, mining, glass production and the recycling industry.
