Konferenz & Ausstellung – New Delhi (Delhi), Indien

Bearbeitet von am 6. Dez. 2023

"14th International Exhibition and Conference on Minerals, Metals, Metallurgy & Materials"

MMMM is the largest event on Minerals, Metals, Metallurgy & Materials, with the presence of a plethora of leading companies from mining, metals and materials industries. The event has always received global appreciation from all over the industry and has proved to be the best international business platform in India.

Minerals, Metals, Metallurgy & Materials is an International Exhibition and Conference (popularly known as MMMM) a leading biennial international event for industry professionals. The event started in 1993 in association with The Indian Institute of Metals – Delhi Chapter (IIM-DC) as a trade platform with presence of all leading companies of Steel and Metal industry.

The exhibition is a joint initiative of World Metal Forum & Hyve India Pvt. Ltd. (formerly ITE Group) This Business Platform has been well recognized by the industry in India as well as world over for product showcasing and branding. Each edition has been adding value to its profile and has been creating new standards in terms of visitor turnout and the volume of business transactions. The event has always received worldwide appreciation from all over the industry and proved to

be the best international business platform in India. MMMM is an ideal B2B platform for entrepreneurs, CEO's, consultants, senior government officials, decision makers and trade delegations to congregate, brainstorm, showcase and forge meaningful business partnerships
