REMA TIP TOP repositions in Southern Germany and becomes new Force in the Field of Conveyor Technology

Bearbeitet von am 31. Jan. 2024

Poing, Deutschland -

REMA TIP TOP further expands its market position as a strong local solution provider for conveyor technology in Southern Germany. Following the acquisition of HEMPEL Industrievulkanisation GmbH & Co. KG in April 2022, TIP TOP Vulkanisierertechnik GmbH will reposition and operate as REMA TIP TOP Süd GmbH.

With TIP TOP Vulkanisiertechnik and Hempel Industrievulkanisation, two leading companies in the field of conveyor technology in Southern Germany are pooling their services, resources and comprehensive know-how in REMA TIP TOP Süd GmbH. As a result, REMA TIP TOP will be represented in the region with 9 service outlets.

"With the new brand, we are significantly boosting our range of services and service network in Southern Germany," says Klaus-Dieter Brandl, Managing Director of REMA TIP TOP Süd GmbH. "At the same time, we are increasing the specialization of our services in key areas such as the maintenance and servicing of conveyor systems using digital tools."

REMA TIP TOP Süd GmbH offers its customers in Southern Germany more than 75 years of experience from two companies in the field of conveyor belt technology and service, from the repair, belt replacement, spare parts supply and fitting to the installation and operation of monitoring systems – with more than 100 employees at 9 service locations.
