Jansen & Heuning delivers Feed Mixer for 70.000 cows in Saudi Arabia

Bearbeitet von am 12. Jan. 2018

For the 70.000 cows on the farm, each mixer mixes

10 m³ (4,5 t) of feed every six minutes. Thirteen different nutrients and minerals are carefully weighed before they enter the mixer. And since the cows have a special taste, some palm oil is added, too.
