Company Profile Pricing

Edited by [mhd](#) on 5. Dec. 2022

The costs for a company profile in the eDirectory on bulk-online.com are calculated according to the selected profile and the additionally booked add-ons. In the following you will find information about the different types of company profiles, the corresponding services and costs, as well as the available add-ons and the respective services and costs. The customer can determine how much he wants to pay at any one time (minimum EUR 420.00/USD 449.83) and the company profile is active until the paid amount is "used up". The company profile as well as the selected add-ons can be changed at any time. However, a "pause" is not possible.
