Metso signs EUR 85 million Contract for Delivery of a Copper Concentrator to Kazakhstan

Edited by on 5. Oct. 2023

Helsinki, Finland –

Metso has signed a contract for the delivery of a new copper concentrator to be built in Kazakhstan. The order value of approximately EUR 85 million is booked in the Minerals segment's third-quarter 2023 orders received.

Metso's scope of delivery consists of the main process equipment for grinding, flotation and dewatering and includes HIGmill® high-intensity grinding mills, TankCell® flotation cells in different sizes in the 30 to 630 cubic meter range, Larox® PF pressure filters, HRT High-Rate Thickeners, an on-line sampling and analyzing system, as well as field instrumentation and Proscon® automation for the whole concentrator plant.

The flotation cells, pressure filters and high-rate thickeners are part of the company's Planet Positive portfolio, thanks to their superior energy and water efficiency.
