IFAT Munich

Trade Fair – München, Germany

Edited by on 5. Dec. 2023

"World's Leading Trade Fair for Water, Sewage, Waste and Raw Materials Management "

IFAT is the world's leading network for environmental technologies. In addition to the world's leading trade fair IFAT Munich, this network also includes trade fairs in China, India, South Africa, Brasil and Turkey. A global network for decision-makers in companies in the environmental technology sector with specific solutions for the respective challenges in the different markets.

A world leader in the truest sense of the word, IFAT Munich—the World's Leading Trade Fair for Water, Sewage, Waste and Raw Materials Management—is active across the globe offering innovations, resources, and solutions, specifically to tackle those challenges present across various markets. In addition to the event in Munich, IFAT also hosts individual trade fairs in China, India, Brasil, South Africa, and Turkey as part of a global network for decision-makers in businesses operating in the environmental technology sector.
