ELECTRA MINING

Trade Fair – Johannesburg, South Africa

Edited by on 6. Dec. 2023

"International South African Mining, Electrical Engineering, General Industrial and Materials Handling Exhibition "

With five decades of accumulated experience since its inaugural show, Electra Mining Africa has built a strong reputation for its ability to effectively connect people, and industries. Known and admired as the biggest mining, electrical, automation, manufacturing, power and transport trade show in Southern Africa, it's the trade show that moves with the times, the show that will benefit you, your company and our country.

With its proven track record for driving sales and increasing sales leads, it's the ultimate platform to showcase the latest products, services, technologies and innovation, and your chance to experience the power of FACE-TO-FACE marketing.

From streamlined registration processes and foot traffic management systems, to cutting-edge live visitor activations, live product demonstrations, product launches, industry conferences and workshops, free seminars, live streaming, and more... there's simply nothing like it for making the right connections.

Connect with thousands of local and international purchasing decision-makers and influencers, looking for products and services, just like yours.
