Solids Dortmund 2023

Trade Fair – Dortmund, Germany

Edited by on 15. Dec. 2022

"Trade show for Granules, Powders and Bulk Solids Technologies"

Practical and solution-oriented: At SOLIDS Dortmund, our exhibitors will present the entire value chain of mechanical processing technology for fine- to coarse-grained materials in 4 halls*. You can find out how to process, handle, store, transport and analyse your granulates, powders and bulk materials most efficiently in personal dialogues with the experts. Whether proven solutions or the latest technologies: let our exhibitors advise you on your individual concerns and compare your options.

Concentrated process power thanks to the RECYCLING-TECHNIK and PUMPS & VALVES Dortmund: The diverse range of products and services at SOLIDS Dortmund will once again be meaningfully supplemented in 2023. You will also find solutions for the recycling and environmentally friendly disposal of your waste products as well as pumps, fittings and processes for industrial gases, solids and liquids. Look forward to a unique trade fair meeting place for industrial process and recycling technology.

* Together with the parallel RECYCLING-TECHNIK and PUMPS & VALVES Dortmund.
