

25. - 27. Apr. 2023

Int. Powder & Bulk Solids 2023

Conference & Exhibition – Rosemont (IL), United States

Edited by on 24. Jan. 2023

The Powder Show expo is where technology and innovation meet to set the course for the future of bulk processing. Featuring more than 350 suppliers offering product demos across the full spectrum of bulk processing, The Powder Show is the best place to meet the partners who can address your needs.

As demand for 3D printing skyrockets, so will the need for innovative dust management practices as well as quality and control systems. Brush up on pneumatic conveying, storage, and feeding best practices during presentations at Center Stage and Tech Theater.
