Metso wins a Pellet Plant Equipment Order from JSW Steel in India

Edited by on 2. Aug. 2018

Helsinki, Finland -

The order is booked in Metso's second quarter 2018 orders received. "Metso has a proven track record of delivering sustainable performance and reliability to the mining industry globally. We are very proud of this order, which further strengthens our position in the Indian mining market," says Victor Tapia, President, Metso Mining Equipment business area. Metso established its operations in India in 1992, and has been developing a strong footprint in the market ever since. Today, Metso is the leading player in pelletizing in India. "We build long-term relationships with our customers, which is the key for success. Through them, we can provide our customers with the best solutions to ensure low operating costs while also improving resource efficiency and recovery", says Kamal Pahuja, SVP, Indian market area at Metso.
