Doppelmayr: Assembly of RopeCon Conveyor started at Booysendal Platinum Mine

To transport the mined ore to an existing processing

plant, Doppelmayr Transport Technology GmbH, headquartered in Austria and a subsidiary of the Doppelmayr group, the world's leading manufacturer of ropeways, will build a RopeCon® system. After the completion of the foundation works, the actual assembly of the system begins. The system is due to start

operations at the beginning of 2019. From then on, it will transport the ore over a length of 4.9 km in steep terrain.
