Int. Conference "Conveying and Handling of Particulate Solids (CHoPS) 2018" - Sep. 10-14, 2018, London (UK)

Edited by on 13. Feb. 2018

Chatham Maritime, United Kingdom -

The scope will range from pharmaceuticals to mining and minerals, including food, chemicals, power generation, waste, environment and all other sectors that process powders and bulk solids. If you deal with particulates - you have to be at CHoPS, no other conference in the area is as large, as international, and as wide ranging in both industry and academic participation.

Early Bird registration is open until 10 April 2018
