

GERMANY

The customer ESCO - European Salt Company GmbH, is a company producing salt for various different applications.

The Rulmecca products in use are Motorized pulleys 500H, 630H, 800M and 800H as well as idlers and Precismeca Montan rollers.

ITALY

YARA ITALIA SpA in Ravenna works 24 h/day and produces urea and complex manure. The environment is very corrosive and marine.

The Company is connected to the dock of Ravenna harbour having a Bedeschi branded ship loader-unloader with Rulmecca PSV rollers, shaft diameter 20mm.

In a reconditioning process the belts were changed into a system with 3 roll garlands diameter 108, PLF and PSV series, all rubber coated.
