

### GERMANY

The customer ESCO - European Salt Company GmbH, is a company producing salt for various different applications.

The Rulmecca products in use are Motorized pulleys 500H, 630H, 800M and 800H as well as idlers and Precismeca Montan rollers.

### AVERY ISLAND, LA, USA

Cargill Deicing is a deep salt mine and barge loading terminal in Avery Island, Louisiana. Cargill has standardized on two Rulmecca Motorized Pulley models: 500M at 20 HP and 480 fpm with 31.5" face width and 630H at 60 HP and 600 fpm with 37.4" face width.

Special features incorporated into the Cargill Motorized Pulleys include inorganic zinc rich primer, 12 mils of Carboline Carbomastic CM15FC paint, regreasable labyrinth seals and stainless steel shafts. The paint system protects steel and cast iron surfaces while the labyrinth seals provide a grease barrier to protect all double lip shaft seals. In addition, Class H motors and synthetic oil protect the drive system from the heat of the Louisiana marshland climate.
