

**Safety around
belt conveyors**

**Event
not to be
missed**

21–22 October 2014

Venue: tbc
(NB: Seating is
limited)

inaugural

SafeCon is a re-branding and expansion of the CMA Safety Symposia that were held in 2010, 2011 and 2012. SafeCon will be held biennially alternating with Beltcon and brings to industry all safety issues on belt conveyors

Conference Preliminary Programme includes

- **Jaco Swart** on Legalities.
- **Simon Curry** on Spillage—safety critical or not.
- **Prof Gabriel Lodevijks** on Safety Integrity Level in design.
- **Ben-Piet Terblanche** on Flame retardant belting.
- **Henk Zwart** on VSD/VFD new National Standard for hazardous locations.
- **Laza Lazarevic** on Equipment replacement.
- **Anthony Coutinho** on Statistics and legalities.
- **Lou Kilian** on Expect the Unexpected

An afternoon session on **BELT SPLICING** detailing the correct design, construction and vital quality controls necessary for a successful splice. The session examines examples of splice failures and discusses the reasons for the failures.

SafeCon 2014

Conveyor Manufacturers Association of SA Ltd
promoting the excellence of belt conveying in southern Africa

Safecon

An industry platform to inform and advise

- current legal requirements [**information**]
- examine case studies [**Learn from past mistakes**]
